Aleksei Gaile

Java Software Engineer | Java Developer
Tallinn

Summary

I am a Java Developer aiming to create quality products and constantly evolving.

I have experience in developing complex web applications, optimizing existing software solutions.

During work participated in several commercial projects, where solved various tasks on the front-end and back-end, and also helped other developers. Prefer to work with the back-end.

<https://gaile.asuscomm.com> - portfolio site, you can also find projects that are suitable as a test task there :)

You can find the site code here - <https://github.com/GaileAlex/cv>

The motive for changing jobs is the desire to move to a new level in your career.

Experience

Wisercat
Software Developer
2019 - Present (2 years)
Tallinn, Harjumaa, Estonia

- Development of new functionality for web applications with microservice architecture.

- Project stack:

Java 8, Spring Boot, Hibernate / JPA, PostgreSQL, Cassandra, Spark, Elasticsearch, Liquibase, Flyway, Docker, Maven, Gradle, Liferay, React

I mostly work as a backend developer (Java Spring Framework), with occasional switching to frontend tasks (React).

- Development of new application functionality
- Solving current tasks on the backend and frontend
- Refactoring of the existing code in accordance with the changing wishes of the client.
- SQL - queries to databases.
- Integration and Unit - testing using junit, mockito.
